As a member of the North Bend school board who had to vote on the Urban renewal - THIS is what they told us! The city completely lied to get the urban renewal passed. It's exactly as I suspected. I couldn't vote on something that once passed, we have NO CONTROL over how the money is allocated or spent!

As a member of the North Bend school board who had to vote on the Urban renewal - THIS is what they told us! The city was not clear on how the taxes work when the urban renewal passed. It is all very confusing.

If it wasn't for the mistake, nobody would have even known. But now we know that all they did was take the one tax away, and increase taxes on everything else to equal almost the exact same amount. They completely lied to the residence of North Bend, and to the School Board before making the decision on the urban renewal. [OBJ]
